

# MAJOR Drilling TRAILBLAZER

# Introduction

## TrailBlazer Rock5

We're optimizing drill performance with our advanced Rock5 technology.

With adaptability to various drill models, it offers an in-house designed dashboard that tracks drill function pressures, water usage and much more!

# Rock5 Key Features

User-friendly interface

Real-time data

Maximizes tool life

Flattens training curve  
for drill teams

Improves preventative  
maintenance strategies

# Who Benefits from Rock5?

**Rock5** boosts safety and efficiency for crews, offers clients data-driven insights and top-notch performance, and sets new industry standards with innovative and transparent practices.

## Our Crews

The Rock5 system **revolutionizes the training process** for our drill crews by significantly speeding up training time and flattening learning curves. It **empowers drillers of all experience levels** to optimize their performance from day one. By leveraging advanced analytics and intuitive design, Rock5 ensures that our teams are well-equipped to handle the demands of modern drilling operations.

## Our Clients

With its advanced analytics and **real-time data** capabilities, Rock5 optimizes drilling performance, allowing for precise and efficient operations. This results in **increased productivity** and **faster turnaround times**, ensuring that our clients receive the highest quality results in the shortest possible time.

## The Drilling Industry

With its cutting-edge technology and real-time data capabilities, Rock5 ensures optimal drilling efficiency and provides unparalleled **insights into drilling operations**. This innovative approach not only enhances productivity but also fosters a **culture of transparency** and continuous improvement within the industry.

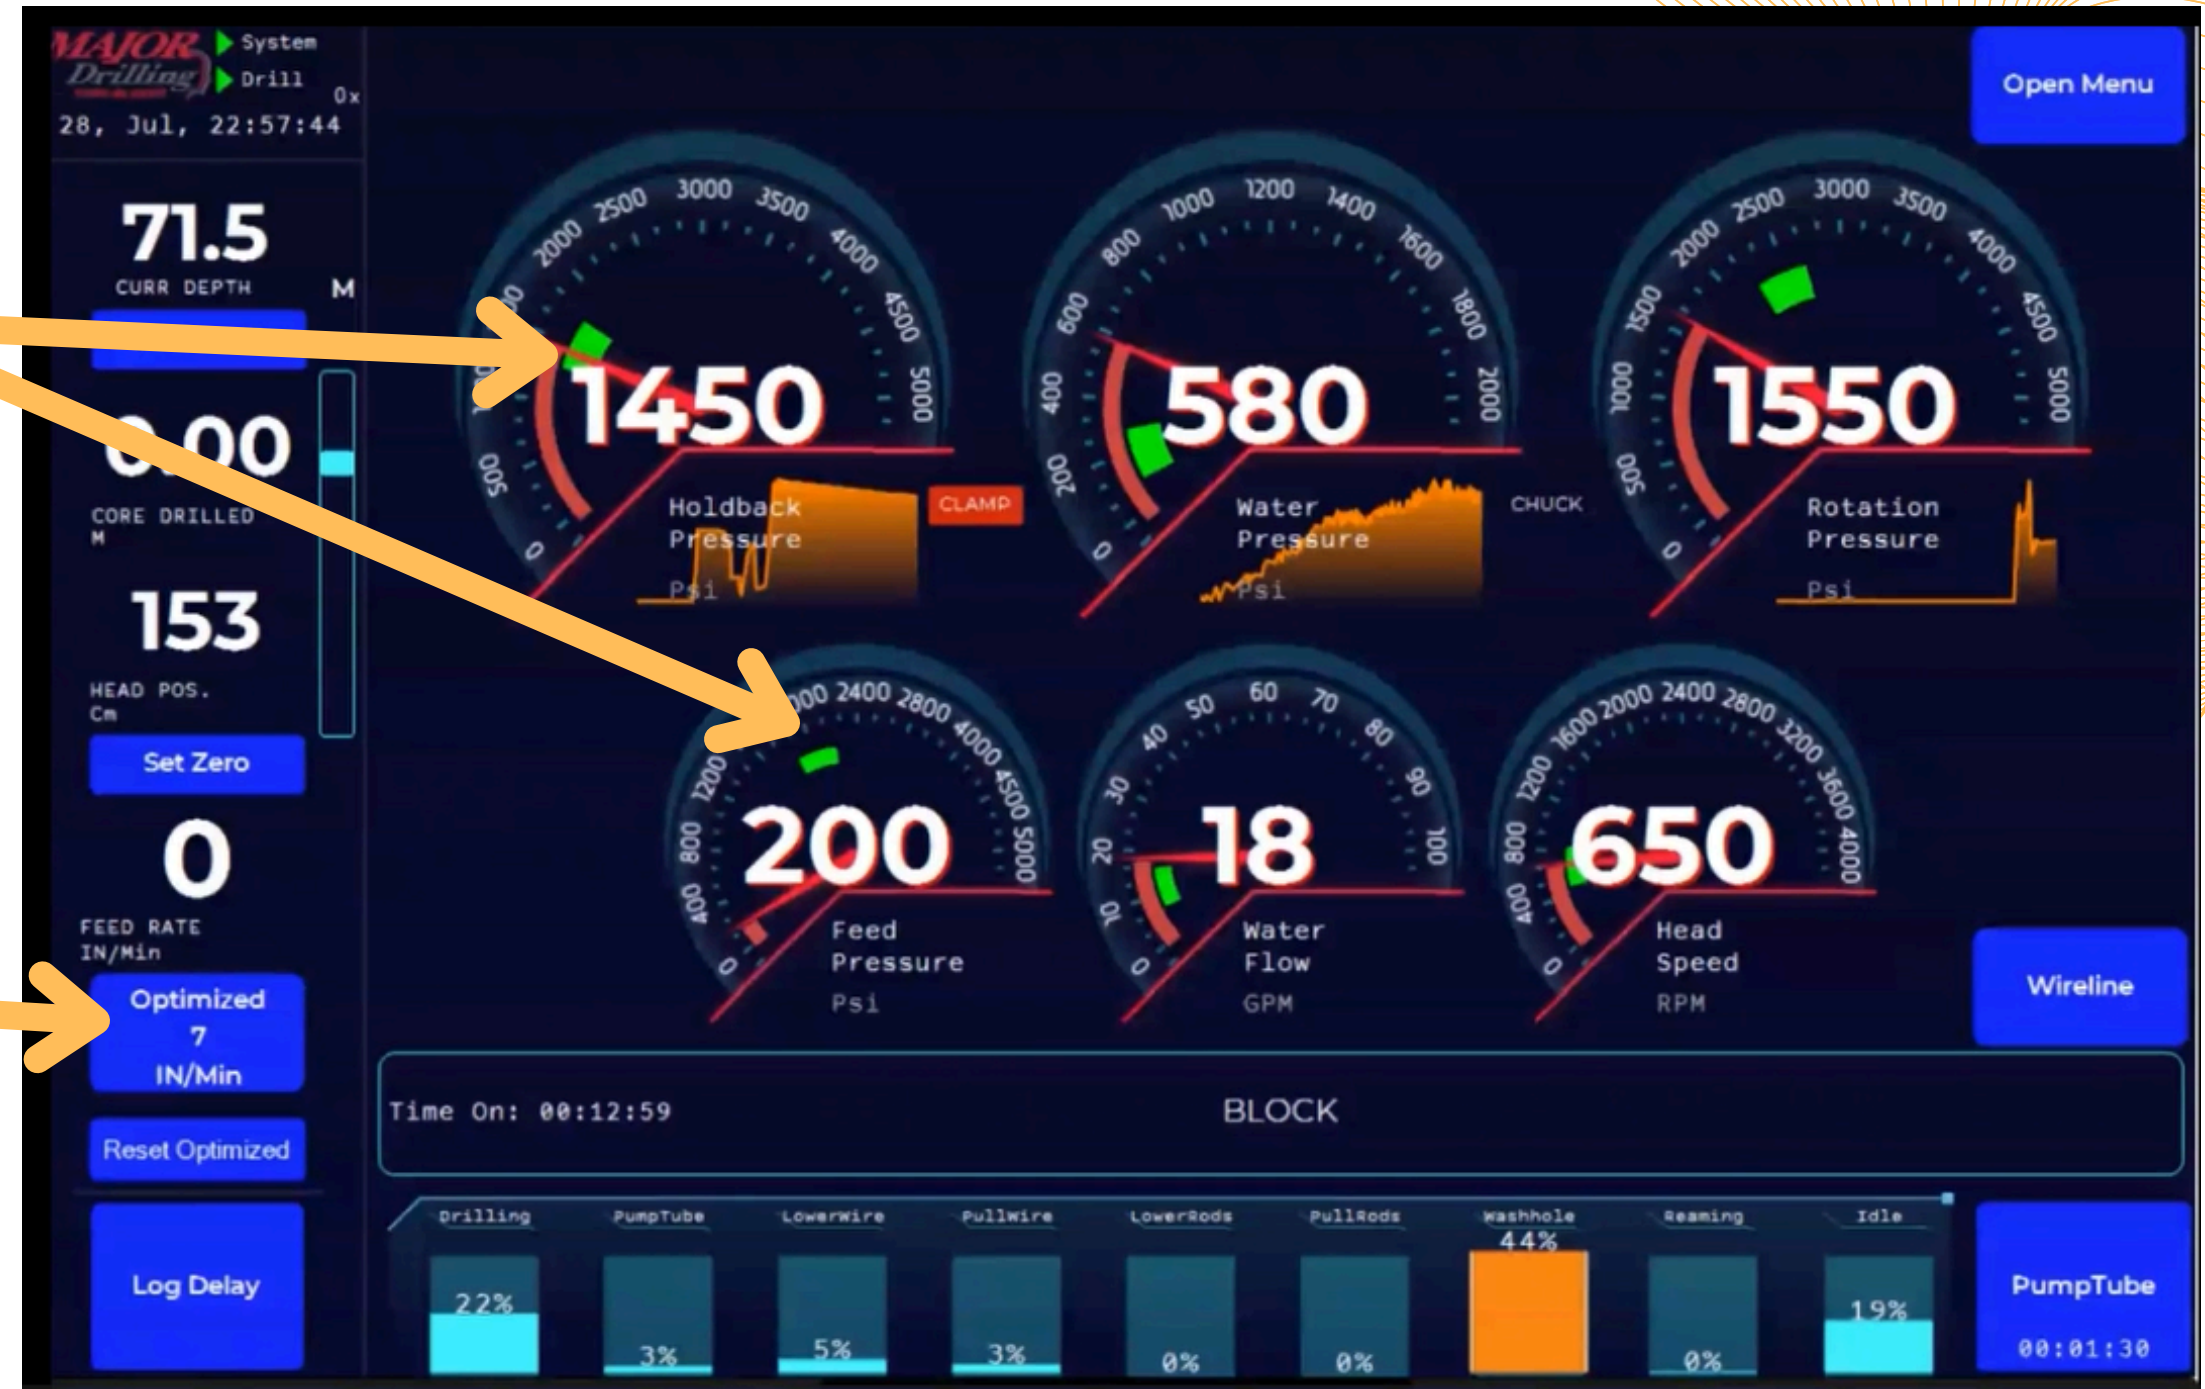

# Dashboard Metrics

Target drilling parameters to achieve optimal penetration rate

Calculated optimal penetration rate

# Rock5 In the Field

# Trailblazer Solutions Suite

These other offerings are designed to enhance the efficiency, safety, and sustainability of drilling projects.

## AquaLink

A cutting-edge solution for water management in drilling projects, AquaLink enhances water usage efficiency and sustainability.

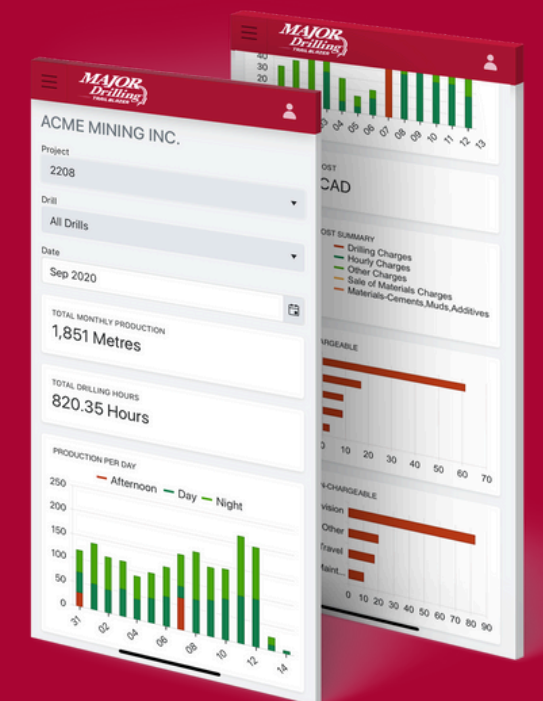

## SafeGrip

Our in-house rod handler solutions offer advanced safety, providing equipment and capabilities that ensure secure handling and operation during drilling activities.

## MTB Mobile & Portal

MTB Mobile captures daily drill reports electronically from the field and submit them directly into our Time & Billing system.

# Global Capabilities

Major Drilling is a leading **specialized drilling** company with a global presence, delivering exceptional results on the toughest sites. Leveraging our extensive experience, modern diversified drilling fleet, and commitment to **safety**, we **partner** with customers **worldwide**.

Our services include surface and underground drilling, directional drilling, dewatering, and more, ensuring quality, safety, and outstanding results. With branch locations across North and South America, Europe, Africa, Asia, and Australia, Major Drilling is equipped to meet the unique needs of every project.

**MAJOR**
